

Stour Provost Cricket Club's Showering and Changing Policy

These guidelines apply to the arrangements to be made for adults, and children, using changing facilities.

Stour Provost Cricket Club will make arrangements so that children and adults do not use the same changing facilities at the same time.

These arrangements, wherever possible, are as follows:

- Adults must not change, or shower, at the same time using the same facility as children - if the same changing room is used then they must have different times
- If adults and children need to share a changing facility, they must do so at different times.
- Mixed gender teams must have access to separate male and female changing rooms
- Due to the risks of inappropriate photography or filming, mobile phones must not be used in changing rooms

If children are uncomfortable changing or showering at the club, no pressure should be placed on them to do so. Instead they may change and shower at home
